Loaner*Link*™

Ensure Loaner and
Vendor Management
Communication, Connection,
and Compliance

# Streamline The Loaner Management Process

LoanerLink® is a cloud-based vendor surgical asset management tool that streamlines the entire loaner management process.

- Direct communication between vendors and the facility
- Full visibility and traceability of vendor trays as they move through the perioperative loop
- Vendor rating system to help manage/maintain vendor relationships

- AAMI compliance advantages such as vendor ordering, vendor management and record retention
- Ability to integrate to an EMR system
- Reporting suite that gives you critical insights into your loaner tray activity, vendor compliance and case details

A Powerful Combination

Combine **LoanerLink** with **CensiTrac** and your OR scheduler to create a single powerful source of truth. This seamless integration keeps both the SPD, OR and Vendor teams updated in real-time on tray status information throughout the entire loaner pathway.

LoanerLink order confirmation data is **automatically** populated in **CensiTrac** in real-time.

Delivery and Check-in

Order Confirmed

Order Created

Loaner set reprocessing history is **automatically** linked to the case ID.

Integration with the OR Scheduler system ensures all trays needed for cases, including loaner trays, receive proper reprocessing prioritization.

Pickup Notification

Pickup Acknowledgment

A loaner set check-out in **CensiTrac** is **automatically** updated in **LoanerLink**, ensuring pickup alerts and notifications are sent to the vendor.

LoanerLink Simplifies and Takes Control

LoanerLink provides easy visibility to key analytics of the entire loaner and vendor management process from set check-in to check-out.

- Communicate in real-time with vendors and maintain tray status transparency for both the SPD and the OR
- Visibility to incoming loaner trays lets you accurately predict your loaner schedule and plan for staffing requirements
